

Guide Assembly Task Cards

Each Crank is made from:

- 2 ovals
- 2 dowels

You will also need:

- Glue, glue cup, and paintbrush
- Tape
- Scissors (*not included in kit*)

Guide Assembly

Let the Guide dry.

Task assigned to: _____

Guide Assembly

Cut a piece of tape between 1 ½ and 1 ¾ inches.

Tape over the holes on one side of one oval.

Quality Control: Tape must be cut to the correct size and cover both holes completely.

Tape may not extend over the edge of the oval

Task assigned to: _____

Guide Assembly

Use the paintbrush to apply a thin layer of glue over the one side of one oval.

Glue the two ovals together.

Task assigned to: _____

Guide Assembly

Inspect all parts.
Poke out any cardboard left in the small
laser-cut holes.
Smooth any rough edges.

Task assigned to: _____

Guide Assembly

Glue the dowels into the holes in the
ovals.
Quality Control: Make sure the
dowels are flush with the bottom oval
and do not push out through the
tape.

Task assigned to: _____
